

LIST OF VEHICLES ADMISSIBLE FROM THE UNITED STATES

VERY IMPORTANT

THE LIST IS BASED ON INFORMATION SUPPLIED TO TRANSPORT CANADA AND THE REGISTRAR OF IMPORTED VEHICLES (RIV) BY VEHICLE MANUFACTURERS ON A VOLUNTARY BASIS. **ITS ACCURACY CANNOT BE GUARANTEED, NOR CAN A GUARANTEE THAT ANY VEHICLE DEEMED ADMISSIBLE CAN BE SUCCESSFULLY MODIFIED TO MEET CANADIAN REQUIREMENTS.**

TRANSPORT CANADA AND THE REGISTRAR OF IMPORTED VEHICLES (RIV) CANNOT GUARANTEE THE ACCURACY OF THE INFORMATION CONTAINED IN THIS LIST (SUBJECT TO CHANGE WITHOUT NOTICE).

PLEASE VERIFY THE ADMISSIBILITY OF A VEHICLE BEFORE PURCHASING A VEHICLE IN THE UNITED STATES.

PLEASE CONTACT THE RIV AT **1-888-848-8240** OR VISIT THEIR WEB SITE AT **www.riv.ca** FOR DETAILED INFORMATION ON THE IMPORTATION PROCESS OF VEHICLES PURCHASED IN THE UNITED STATES.

YOU MAY ALSO ACCESS THE LIST OF VEHICLES ADMISSIBLE FROM THE UNITED STATES VIA THE INTERNET BY SELECTING "VEHICLE IMPORTATION" FROM THE POPULAR TOPICS SECTION AT **www.tc.gc.ca/roadsafety**

- EXPLANATIONS ON MANDATORY COMPLIANCE – (1 of 3)

1. A U.S. specification vehicle is a vehicle designed, built, tested and certified by the **original equipment manufacturer (OEM)** to meet all applicable U.S. Federal Motor Vehicle Safety Standards (FMVSSs). Where a U.S. specification vehicle is listed as ADMISSIBLE, and requires modifications, it may be extensive and expensive. Importers should determine the cost and extent of any required modifications before importing a vehicle into Canada. Vehicles that cannot be modified, for whatever reason, must not remain in Canada and must be exported. Where there is no information in this list concerning a U.S. specification vehicle, you must contact the manufacturer to determine its admissibility or inadmissibility. Manufacturers of U.S. vehicles are not legally obligated to respond to Transport Canada's requests for information on admissibility status or required to explain the reasons for inadmissibility, although some do. Transport Canada is not legally responsible for the accuracy and safety or cost implications of the information provided by OEMs.

2. Admissible vehicles, except competition vehicles, snowmobile cutters and all terrain vehicles (ATVs), must be certified by OEMs to all applicable U.S. Federal Motor Vehicle Safety Standards (FMVSSs). Two criteria can be used to determine this:

a) a compliance label affixed to the vehicle at the time of main assembly with one of the following statements,

"This vehicle conforms to the applicable federal motor vehicle safety, bumper and theft prevention standards in effect on the date of manufacture shown above"; or

"This vehicle conforms to all applicable U.S. federal motor vehicle safety standards in effect on the date of manufacture shown above"; or

b) a letter from the original manufacturer and the final stage manufacturer (if applicable) containing the same information as would appear on the compliance label.

3. Vehicles that have been modified from their original state, other than regular maintenance, may not be eligible for importation into Canada. For example, a van transformed into a motorhome (often known as Class B motorhome), a van equipped with raised roof and/or modified interior, a pick-up or a passenger car equipped with lift kit, a motorcycle converted to a motor tricycle (trike), etc.

4. Some vehicles in SECTION 3 - Passenger Cars, SECTION 5 - Multipurpose Passenger Vehicles, and SECTION 12 - Trucks, Are marked with either a) an arrow '>', or b) '[EIS]', or c) '>[EIS]', explained as follows:

- a) an arrow '>' indicates that a vehicle will require modification to accommodate child tether anchorages (modifications may be extensive and expensive);
- b) an '[EIS]' annotation indicates that the vehicle is either equipped with an electronic immobilization system installed by the manufacturer, but not certified to meet CMVSS 114, or that no electronic immobilization system is installed (please see paragraph 9 of these explanations for further information on immobilizers); and
- c) an '>[EIS]' annotation indicates that the vehicle requires modification to the child tether anchorages and that some action is required on the immobilizer (see paragraph 9 for details). Where an arrow '>' and an '[EIS]' annotation are at the end of a group which lists models joined by a comma ',' or an ampersand '&' sign, all models in that group are affected by the arrow '>' and the letters '[EIS]'

THE FOLLOWING INFORMATION IS SUBJECT TO CHANGE WITHOUT NOTICE - TRANSPORT CANADA AND THE REGISTRAR OF IMPORTED VEHICLES DOES NOT GUARANTEE ITS ACCURACY – Aug/01/2012 Edition

- EXPLANATIONS ON MANDATORY COMPLIANCE - (2 of 3)

5. U.S. vehicles originally equipped with air bags, as required by U.S. safety standards, must have operational air bags at the time of inspection by the Registrar of Imported Vehicles (RIV).

6. All admissible vehicles, including all types of trailers, must bear a 17 character alphanumeric sequence, as required by CMVSS 115 - Vehicle Identification Number (VIN), including snowmobiles manufactured after January 1, 2001 and restricted-use motorcycles (RUMs) manufactured after December 1, 2004. RUMs manufactured before December 2004 must have a VIN composed of between 4 and 17 alphanumeric characters, as required by CMVSS 115.

7. ACTIVE and U.S. PASSIVE RESTRAINT SYSTEMS - Passive restraint systems are identified as a motorized upper torso restraint or a door mounted 3-point restraint. The fact that a seat belt restraint system is considered to be active or passive does not in itself determine a vehicle's admissibility or inadmissibility into Canada. What does make this determination is whether or not that vehicle meets CMVSS 210 - Seat Belt Assembly Anchorages. Vehicles identified by their manufacturer as not meeting CMVSS 210 at the time of manufacture are not eligible for importation into Canada under any circumstances. No modifications are allowed to the seat belt anchorage system.

8. CONFIRMATION OF NO OUTSTANDING RECALLS - Confirmation that there are no outstanding recalls on a vehicle is a mandatory requirement for the RIV federal inspection program. This confirmation has to be sent to the RIV as soon as possible before, during or after the importation of a U.S. specification vehicle into Canada. The Inspection Form (Form 2) will only be released to the importer by the RIV upon receipt and acceptance of the confirmation of no outstanding recalls. To verify what types of confirmation of no outstanding recalls are accepted by the RIV, please visit their Web site at: http://www.riv.ca/english/html/recall_clearance.html. Submit your confirmation of no outstanding recalls to the RIV by e-mail at recall@support.riv.ca, or by fax at 1-888-642-9899, or mail to 405 The West Mall, Toronto ON M9C 5K7.

The symbol (#) indicates that the manufacturer will not issue a confirmation of no outstanding recalls for vehicles that were once declared "salvaged" in the U.S. Failure to produce this confirmation will result in a failed inspection; therefore rendering the vehicle inadmissible. Please contact your manufacturer in all cases to ensure that this confirmation can be issued.

9. ELECTRONIC IMMOBILIZATION SYSTEM - Every passenger vehicle, multipurpose passenger vehicle, truck and three-wheeled vehicle manufactured after September 1, 2007, with a Gross Vehicle Weight Rating (GVWR) less than 4,536 kg (10,000 lbs), except an emergency vehicle or a walk-in van, must be equipped with an electronic immobilization system, as per the requirements of CMVSS 114 - Theft Protection.

Electronic immobilizers typically require a special key or a small electronic device to start a vehicle's engine. This type of system, when activated, prevents the operation of the engine in response to any attempt to start the vehicle without using the authorized key, by shutting off one or more parts of the engine's electrical system. This might include the starter, ignition or fuel system.

Many manufacturers equip some or all of their U.S. market vehicles with electronic immobilization systems that meet the requirements of CMVSS 114, while in some cases these are available only as an option. There are also several U.S. market vehicles that are either not equipped with electronic immobilization systems, or that are equipped with electronic immobilization systems that do not meet the requirements of CMVSS 114. Here are three possible circumstances:

- a) **Electronic Immobilizers Installed as Original Equipment and Certified to CMVSS 114**
Vehicles equipped with such systems do not require any special inspection or modifications. They are listed as admissible without any special annotation regarding the immobilizer.
- b) **Electronic Immobilizers Installed as Original Equipment but Not Certified to CMVSS 114**
Vehicles that do not comply with CMVSS 114 will require confirmation of the presence of an electronic immobilizer at the time of the RIV federal inspection. They are listed as admissible with a special annotation ([EIS]) regarding the immobilizer. Demonstration of the presence of an electronic immobilizer can be done through one of the following means:
 - presentation of the completed vehicle purchase agreement showing the VIN and indicating the presence of an electronic immobilizer;
 - presentation of the vehicle window sticker (Monroney label) showing the VIN and indicating the presence of an electronic immobilizer;
 - a letter from the manufacturer showing the VIN and indicating the presence of an electronic immobilizer; and
 - other type of information present on the vehicle or on the ignition key or fob allowing the positive identification of such a system.
- c) **No Electronic Immobilizers Installed**
These vehicles will need to be fitted with an immobilization system that conforms to National Standard of Canada CAN/ULC-S338-98, entitled Automobile Theft Deterrent Equipment and Systems: Electronic Immobilization (May 1998), published by the Underwriters' Laboratories of Canada, before being presented for registration under the laws of a province. These are listed as admissible with a special annotation [EIS] regarding electronic immobilizers.

THE FOLLOWING INFORMATION IS SUBJECT TO CHANGE WITHOUT NOTICE - TRANSPORT CANADA AND THE REGISTRAR OF IMPORTED VEHICLES DOES NOT GUARANTEE ITS ACCURACY – Aug/01/2012 Edition

- EXPLANATIONS ON MANDATORY COMPLIANCE - (3 of 3)

9. ELECTRONIC IMMOBILIZATION SYSTEM (continued)

At the time of the required federal inspection at one of the RIV inspection stations, the importer must present the original invoice (and provide a copy to the RIV) confirming the installation of an electronic immobilizer compliant to CAN/ULC-S338-98, as mentioned above. The invoice must clearly indicate VIN, name and address of aftermarket installer, date of installation, and conformity of the system to CAN/ULC-S338-98.

Importers should be aware of the following **BEFORE** they purchase a vehicle in the U.S.:

- there is no guarantee that an aftermarket immobilizer can be fitted to a vehicle;
- some manufacturers have indicated that the installation of an aftermarket immobilizer may affect a vehicle's warranty;
- some manufacturers have indicated that the installation of an aftermarket immobilizer may affect the performance of certain safety equipment on a vehicle;
- certified installers of CAN/ULC-S338-98 aftermarket immobilizers may not be available in your local area;
- modifications may be complex and expensive; and
- importers enter the importation process at their own risk and Transport Canada assumes no liability.

Transport Canada does not endorse any brand of electronic immobilization systems or installers. Information on immobilizers and installers can be obtained by contacting Vehicle Anti-Theft Security Installation Standards (VATSIS) (<http://www.vatsis.com>) or the Vehicle Security Installation Bureau (VSIB) (<http://www.vsib.ca/index.html>). Other organizations may also be able to supply information.

10. WARNING: Trailers with a Gross Vehicle Weight Rating (GVWR) of 4,536 kg (10,000 lbs) or more manufactured after September 1, 2007 - Every trailer with a GVWR of 4,536 kg or more manufactured after September 1, 2007, must be equipped with a rear impact guard that conforms to Section (3) of CMVSS 223 - Rear Impact Guard.

The only exceptions are:

- a) a pole trailer, a pulpwood trailer, a wheels back trailer or a trailer designed to be used as temporary living quarters;
- b) a low-chassis trailer; and
- c) a trailer designed to interact with, or having, work-performing equipment located in or moving through the area that would be occupied by a horizontal member that meets the configuration requirements specified in the standard.

Most trailers with a GVWR of 4,536 kg or more sold at the retail level in the U.S. and manufactured after September 1, 2007, may not be equipped with a rear impact guard that conforms to Canadian requirements. Before you import a trailer, please make sure it is listed as ADMISSIBLE (see SECTION 11 of this document).

11. HOME-MADE TRAILERS - A home-made trailer is a vehicle that has been manufactured by the importer. A home-made trailer can be imported into Canada through the RIV federal inspection program.

12. DAYTIME RUNNING LAMPS - Before installing daytime running lamps on your vehicle, you should be aware that many vehicles purchased in the U.S. are already equipped with daytime running lamps. However, their inboard operating systems have not been activated. In many cases, the vehicle manufacturers' dealers are able to activate the daytime function.

13. IMPORTATION OF VEHICLES (15) YEARS OLD OR OLDER AND BUSES MANUFACTURED BEFORE JANUARY 1, 1971 - Vehicles fifteen (15) years old or older, as determined by the month and year of manufacture, and buses manufactured before January 1, 1971, are no longer regulated under the *Motor Vehicle Safety Act* by virtue of their age. While Transport Canada does not regulate the importation of these vehicles, it does not preclude the vehicles from having to meet provincial/territorial safety and licensing requirements. Importers of such vehicles are required to complete a Vehicle Import Form 1, at the time of importation, and present proof of ownership. Also, please contact the Canada Border Services Agency (CBSA) for clearance requirements.

14. MANUAL TRANSMISSION AND CLUTCH PEDAL (Vehicles manufactured after May first 2005 and newer only) - If a passenger car, multi-purpose passenger vehicle, truck or three-wheeled vehicle has a GVWR of 4 536 kg or less and is equipped with a manual transmission, it must not be possible to start the engine unless the clutch pedal is depressed or the drive train is otherwise disengaged. If it is possible to start the engine without the clutch pedal being depressed or with the drive train engaged, the vehicle will fail the RIV inspection.

SECTION 1 - THE REGISTRAR OF IMPORTED VEHICLES (RIV)

On April 12, 1995, a new *Motor Vehicle Safety Act* and revised Motor Vehicle Safety Regulations were proclaimed. The new Act allows vehicles originally manufactured in compliance with U.S. laws for the U.S. market to be imported into Canada, **provided they comply at the time of main assembly with mandatory Canadian Motor Vehicle Safety Standards (CMVSSs)**, such as CMVSS 210 - Seat Belt Assembly Anchorages. The new legislation makes it possible for a vehicle to be modified in certain areas (child restraint tether anchorages, daytime running lights, and some labeling requirements).

To carry out the task of monitoring the importation of vehicles purchased at the retail level in the U.S., Transport Canada has contracted a company called the **Registrar of Imported Vehicles (RIV)** to establish and operate a system of inspection and compliance confirmation of imported vehicles. The program is a controlled process of federal registration, inspection and verification to ensure that a U.S. specification vehicle is confirmed compliant to all CMVSSs prior to provincial/territorial licensing and registration in Canada.

Some of the benefits of this program to Canadians are to:

- ensure the safety of vehicles on Canadian roads;
- allow vehicles that do not meet Canadian safety standards, in such areas as, daytime running lights, child restraint tether anchorages, and some labeling requirements, to be modified after they enter Canada;
- assist importers through a support system, including a bilingual public response service (**1-888-848-8240**);
- assist the Government of Canada to develop and maintain an accurate and comprehensive data base on such importations;
- assist Transport Canada in its enforcement efforts; and
- assist provinces and territories to enable checks of vehicles prior to licensing and registration in Canada, in compliance to federal safety standards.

Upon arrival at the border, importers must produce the vehicle's title, documents related to its purchase and a valid driver's license or passport.

There must be evidence - a Statement of Compliance (SOC) label or a manufacturer's letter - stating that the vehicle was built to comply, and complied to U.S. Federal Motor Vehicle Safety Standards (FMVSSs) at the time of main assembly. Importers must have the means of paying the RIV fees, customs charges and applicable taxes by Visa, MasterCard, AMEX, certified cheque or money order. A confirmation that there are no outstanding recalls on a vehicle or proof that the recall work has already been completed in the U.S. must be sent to the RIV as soon as possible before, during or after importation. To verify what types of confirmation of no outstanding recalls are accepted by the RIV, please visit their Web site at: http://www.riv.ca/english/html/recall_clearance.html. Send your confirmation of no outstanding recalls to the RIV by e-mail at recall@support.riv.ca, or by fax at 1-888-642-9899, or mail to 405 The West Mall, Toronto ON M9C 5K7.

The Registrar's fee is \$195.00 Cdn (plus GST/HST) at Designated Ports and at Non-Designated Ports, in all provinces except Quebec, where the fee is \$195.00 Cdn (plus GST and QST). A list of Designated Ports follows this section. The importer is responsible for the actual costs of modifying the vehicle. There are also fees and charges resulting from failure to pass the initial inspection within 45 days.

OF IMPORTED VEHICLES DOES NOT GUARANTEE ITS ACCURACY - Aug/01/2012 Edition**

SECTION 2 - GENERAL

VEHICLE TYPES	ADMISSIBLE	INADMISSIBLE	NOTES
All vehicles (except buses) FIFTEEN (15) YEARS OLD OR OLDER	All are admissible (see notes)		Importer must be able to provide proof that the vehicle is fifteen (15) years old or older as determined by the month and year of manufacture.
Buses manufactured BEFORE January 1, 1971	All are admissible (see notes)		Importer must be able to provide proof that the bus was manufactured prior to January 1, 1971.
Buses manufactured AFTER January 1, 1971	Refer to Section-6 for BUSES Refer to Section-7 for SCHOOL BUSES	Refer to Section-6 for BUSES Refer to Section-7 for SCHOOL BUSES	N.B.: If model has a designated seating capacity of MORE THAN 10 including the driver, it is a bus.
Trucks and pick-up trucks with a GVWR inferior or equal to 4536 kg (10,000 lbs) LESS THAN FIFTEEN (15) YEARS OLD	All trucks with GVWR of 4536 kg or less manufactured BEFORE September 1, 2007 are admissible For trucks with GVWR of 4536 kg or less manufactured AFTER September 1, 2007, refer to Section 12	All vehicles that have undergone alterations other than typical repairs are inadmissible	See EXPLANATIONS section. GENERAL MOTORS: GM advises to contact GM Vehicle Vintage Services group at 1-888-467-6853 (toll free) or 1-905-440-7689 (outside Canada) to obtain recall clearance documentation.
Trucks with a GVWR greater than 4536 kg (10,000 lbs) LESS THAN FIFTEEN (15) YEARS OLD	All trucks with a GVWR greater than 4536 kg (10,000 lbs) are admissible	All vehicles that have undergone alterations other than typical repairs are inadmissible	See EXPLANATIONS section.
Trailers LESS THAN FIFTEEN (15) YEARS OLD , including: utility trailers, enclosed cargo trailers, low-chassis trailers, air braked trailers, travel trailers, fifth wheel trailers, horses/stock trailers, boat trailers, car dollies, portable air compressors, log splitters, wood chippers, etc.	All trailers manufactured BEFORE September 1, 2007 are admissible All trailers manufactured AFTER September 1, 2007 with GVWR of 4536 kg or less are admissible For trailers manufactured AFTER September 1, 2007 with a GVWR greater than 4536 kg, refer to Section 11 for additional requirements unless the trailer belongs to following list of EXEMPTIONS WHICH ARE ADMISSIBLE INTO CANADA : (a) a pole trailer, a pulpwood trailer, a wheels back trailer or a trailer designed to be used as temporary living quarters (i.e. travel / RV trailer); (b) a low-chassis trailer (i.e. horse / stock trailer, boat trailer); and (c) a trailer designed to interact with, or having, work-performing equipment located in or moving through the area that would be occupied by a horizontal member that meets the configuration requirements specified in the standard. For home-made trailer, see Note 1	Trailers WITHOUT a valid legible 17-character Vehicle Identifier Number (VIN) are inadmissible Trailers WITHOUT a valid U.S. manufacturing statement of compliance label or letter from the manufacturer are inadmissible Home-built trailers being imported by someone OTHER than the original builder are inadmissible All trailers that have undergone alterations other than typical repairs are inadmissible	See EXPLANATIONS section. Note 1: A home-made trailer can be imported into Canada if it has been built by the importer. Other conditions also apply.
Sport Utility Vehicles, Travel Vans, Conversion Vans and Disabled Access	See Notes		There are numerous restrictions on these types of vehicles. Please refer to one of the sections 5.1 to 5.6 in the table of contents specific to the vehicle category of interest.

THE FOLLOWING INFORMATION IS SUBJECT TO CHANGE WITHOUT NOTICE - TRANSPORT CANADA AND THE REGISTRAR OF IMPORTED VEHICLES DOES NOT GUARANTEE ITS ACCURACY - Aug/01/2012 Edition

SECTION 2 - GENERAL (Cont'd)

VEHICLE TYPES	ADMISSIBLE	INADMISSIBLE	NOTES
<p>Vehicles LESS THAN FIFTEEN (15) YEARS OLD</p>			
<p>Wrecked vehicles purchased in the Unites States declared as "complete vehicles"</p>	<p><u>Admissible "as complete vehicles"</u> are:</p> <p>Vehicles listed as admissible on the admissibility list accompanied with a U.S. vehicle "Certificate of title" showing: CLEAR, SALVAGE, REBUILDABLE, REBUILT, REPAIRABLE, REPAIRED or other equivalent</p> <p>Branding information is verified by the RIV through U.S. databases verification at importation. Salvage brands are further reported to all provincial and territorial licensing jurisdictions in Canada, even if the vehicle title provided at importation indicated otherwise. In certain circumstances, this can severely limit your ability to get the vehicle licensed and insured in Canada when the branding information is inconsistent.</p>	<p><u>Inadmissible "as complete vehicles"</u> are:</p> <p>Vehicles listed as inadmissible on the admissibility list OR Vehicles listed as admissible on the admissibility list accompanied with a U.S. vehicle "Certificate of title" showing: JUNK, SCRAP, PARTS ONLY, NON-REBUILDABLE, NON-REPAIRABLE or other equivalent</p> <p>Vehicle with a brand of salvage/lood are considered as non-repairable by all licensing jurisdictions in Canada. These vehicles cannot be legally licensed and can only be imported as "DISASSEMBLY FOR PARTS ONLY".</p>	<p>See EXPLANATIONS section. Importer must submit a valid "Certificate of Title" from a U.S. State motor vehicle licensing authority when entering Canada.</p>
<p>Wrecked vehicles purchased in the Unites States declared as "DISASSEMBLY FOR PARTS ONLY"</p>	<p><u>Admissible as "DISASSEMBLY FOR PARTS ONLY"</u> are:</p> <p>Vehicles <u>listed as admissible</u> on the admissibility list accompanied with a U.S. vehicle "Certificate of title" showing: CLEAR, SALVAGE, REBUILDABLE, REBUILT, REPAIRABLE, REPAIRED, JUNK, SCRAP, PARTS ONLY, NON-REBUILDABLE, NON-REPAIRABLE or other equivalent.</p> <p>Vehicles <u>listed as inadmissible</u> on the admissibility list accompanied with a U.S. vehicle "Certificate of title" showing: JUNK, SCRAP, PARTS ONLY,</p>	<p><u>Inadmissible as "DISASSEMBLY FOR PARTS ONLY"</u> are:</p> <p>Vehicles <u>listed as inadmissible</u> on the admissibility list accompanied with a U.S. vehicle "Certificate of title" showing: CLEAR or other equivalent.</p>	<p>IMPORTANT: Once the vehicle's intended use is declared as "DISASSEMBLY FOR PARTS ONLY" at importation, the status <u>cannot be modified</u> and the vehicle is no longer eligible for licensing in Canada.</p> <p>The Form-3 declaration must be completed when importing a vehicle as "disassembly for parts only". The status is <u>final</u> and cannot be modified once completed.</p>

THE FOLLOWING INFORMATION IS SUBJECT TO CHANGE WITHOUT NOTICE - TRANSPORT CANADA AND THE REGISTRAR OF IMPORTED VEHICLES DOES NOT GUARANTEE ITS ACCURACY - Aug/01/2012 Edition

SECTION 2 - GENERAL (Cont'd)

VEHICLE TYPES	ADMISSIBLE	INADMISSIBLE	NOTES
	<p>NON-REBUILDABLE, NON-REPAIRABLE, or other equivalent.</p> <p>Once a vehicle is declared for "parts only" at importation, it is given a non-repairable status. The RIV reports the non-repairable status to all provincial and territorial licensing jurisdictions in Canada. That status cannot be reversed and the vehicle can never be licensed in Canada.</p>		
Kit Cars LESS THAN FIFTEEN (15) YEARS OLD (assembled or unassembled)		None are admissible	
Competition Vehicles	All models		Competition Vehicles are designed for use exclusively in closed-course competition. These vehicles are exempt from the RIV program provided they: bear a label affixed by the manufacturer stating, in both official languages, that the vehicle is a competition vehicle and is for use exclusively in closed-course competition, or is accompanied by a signed declaration clearly indicating that the vehicle is a competition vehicle and is for use exclusively in closed-course competition. This signed declaration MUST come from a racing sanctioning body, i.e. FIA, AMA, CART, etc.

SECTION 3 - PASSENGER CARS

1997 MODELS OR NEWER

(See Section (2) General for vehicles fifteen (15) years old or older as determined by month and year of manufacture)

MANUFACTURER	ADMISSIBLE	INADMISSIBLE	NOTES
ACURA			SEE HONDA
ALFA ROMEO	2008 Alfa Romeo 8C Competizione 2009 Alfa Romeo 8C Spider	All other passenger car models are inadmissible.	See "EXPLANATIONS" section. There were no Alfa Romeo passenger car models built for the U.S. between 1995 and 2007.
ASTON MARTIN	1997 TO 2012 All models		See "EXPLANATIONS" section.
AUDI	1997 TO 2000 A4 Sedan, A4 Sedan Quattro> 1997 TO 2000 A6 Sedan, A6 Sedan Quattro> 1997 TO 2000 A8> 1998 TO 2001 A4 Wagon & Wagon Quattro> 2000 TT Coupe (see note-1)> 1997 TO 2013 All other passenger car models except those listed in the inadmissible column.	1997 A6 Wagon 1997 A6 Wagon Quattro 1998 A6 Wagon & Wagon Quattro	See EXPLANATIONS section. Some U.S. Audi vehicles may be equipped with a Multi Media Interface (MMI) system which can turn off the Daytime Running Lamps (DRLs) while vehicle is in motion. In Canada, DRLs must be permanently on once a vehicle is in motion. The DRL control system of such vehicles may need to be re-programmed to disable the feature that permits turning off DRLs. Contact an authorized Audi dealer for more information.

**THE FOLLOWING INFORMATION IS SUBJECT TO CHANGE WITHOUT NOTICE - TRANSPORT CANADA AND THE REGISTRAR
OF IMPORTED VEHICLES DOES NOT GUARANTEE ITS ACCURACY - Aug/01/2012 Edition**

SECTION 3 - PASSENGER CARS (Cont'd)

MANUFACTURER	ADMISSIBLE	INADMISSIBLE	NOTES
			Note-1: VW of America has indicated that some 2000 TT models require replacement of seat backs for tether anchorage modifications (to comply to CMVSS 210.1). Importer should verify with VW of America before importing a vehicle into Canada as modifications may be expensive.
BENTLEY	1997 TO 1999 All models built BEFORE September 1, 1999 (see Notes 1 and 2) 1999 TO 2012 All models built AFTER September 1, 1999 (see Notes 1 and 3)		See "EXPLANATIONS" section. Note 1: Bentley Canada informed Transport Canada that ALL modifications MUST be performed (and documented) by an authorized Bentley Canada dealer and must be completed before a recall clearance letter can be issued by Bentley Canada. Contact an authorized Canadian retailer for information on exact nature and costs of modifications required for U.S. Bentley vehicles. Note 2: Modifications may include: daytime running lights, child tether anchorage systems, metric odometer and speedometer labels. Note 3: Modifications may include: daytime running lights and metric odometer and speedometer labels.
BMW	1997 TO 1999 All models built BEFORE September 1, 1999 (see Notes 1 and 2) 1999 TO 2012 All models built AFTER September 1, 1999 (see Notes 1 and 3)		See "EXPLANATIONS" section. Note 1: BMW Canada informed Transport Canada that ALL modifications MUST be performed (and documented) by an authorized BMW Canada or MINI retailer and must be completed before a recall clearance letter can be issued by BMW Group Canada. Contact an authorized Canadian retailer for information on exact nature and costs of modifications required. Modifications vary by model and may be expensive. Note 2: Modifications may include: daytime running lights, child tether anchorage systems, metric odometer and speedometer labels. Note 3: Modifications may include: daytime running lights and metric odometer and speedometer labels. Visit BMW Canada's website at www.bmw.ca for detailed contact information on retailers in Canada, as well as information on U.S. vehicle importation.
BUGATTI	2006 TO 2012 Veyron, Grand Sport and Supersport models		See "EXPLANATIONS" section. Bugatti and Volkswagen Group of Canada require that importers contact Bugatti (818-309-8161) to obtain a recall letter. Some 2006 to 2008 models may require modifications to daytime running lights. Contact an authorized Bugatti service dealer to determine the exact nature and cost of required modifications.
CHRYSLER PLYMOUTH / DODGE / EAGLE / JEEP	1997 TO 2012 All models. If built AFTER September 1, 2007 [EIS] see notes 2012 Fiat 500 (see Fiat)		See "EXPLANATIONS" section. [EIS]: See "EXPLANATIONS" section paragraph #9.

MANUFACTURER	ADMISSIBLE	INADMISSIBLE	NOTES
	2012 AND 2013 Lincoln MKS, MKZ and MKZ Hybrid 2012 AND 2013 Fusion and Fusion Hybrid		
GENERAL MOTORS / SATURN	1997 TO 2013 All General Motors / Saturn models (Please read all notes)	(Please read all notes)	See EXPLANATIONS section. Note 1: [EIS] Electronic Immobilization System : for vehicles built AFTER September 1, 2007, you must read paragraph #9 of the "EXPLANATIONS" section. Note 2: 1997 and 1998 Cadillac Catera ">" (if last eight characters of VIN are WR083596 or higher, child tether anchorage modifications are not required, otherwise read paragraph #4.a of the "EXPLANATIONS" section). Note 3: Some U.S. GM vehicles are equipped with a switch that can turn off the Daytime Running Lamps (DRLs) while vehicle is in motion. In Canada, DRLs must be permanently on once vehicle is in motion. The DRL control system of your vehicle may need to be reprogrammed to neutralize switch that permits turning DRLs off. For more information, please contact your GM dealer. Importers can also contact GM Vehicle Vintage Services group at 1-888-467-6853 (toll free) or 1-905-440-7689 (outside Canada) to obtain a recall clearance letter.
GEO	1997 Metro 1997 Prizm 1997 All models	All other Geo passenger car models are inadmissible.	See "EXPLANATIONS" section. Production of GEO passenger cars was discontinued after model year 1997. 1998 AND NEWER MODELS ARE GENERAL MOTORS PRODUCTS. Vehicles equipped with passive restraints do not meet CMVSS 210, Seat Belt Anchorage location requirements. Passive restraints are identified as either a motorized upper torso restraint or a door mounted 3-point restraint.
HONDA / ACURA	1997 TO 2012 All Honda and Acura models Please read all notes	Please read all notes	See "EXPLANATIONS" section. Note 1: [EIS] Electronic Immobilization System : for vehicles built AFTER September 1, 2007, you must read paragraph #9 of the "EXPLANATIONS" section. Note 2: Possible modifications may include: daytime running lights, electronic immobilization system (see Note 1), metric odometer and speedometer labels. At federal inspection, the RIV will verify that vehicle is equipped with daytime running lamps that cannot be turned off while the vehicle is in motion and that odometer and speedometer are properly identified. Importer must also demonstrate that the vehicle is equipped with an electronic immobilization system for vehicles built AFTER September 1, 2007. Other requirements may also apply. For additional information specific to a vehicle, please contact your Honda/Acura dealer. Importers can also contact American Honda Motor Co. at 1-800-999-1009.
HYUNDAI	1997 TO 2012 All models	Please read all notes	See "EXPLANATIONS" section.

SECTION 10 - AMBULANCE VEHICLES (Cont'd)

MANUFACTURER	ADMISSIBLE	INADMISSIBLE	NOTES
		AMBULANCE VEHICLES	section.
TRI-STAR INDUSTRIES LTD.	Type I and III Type II manufactured on Ford full size vans. If built after September 1, 2007: [EIS] (see notes).	ALL OTHER AMBULANCE VEHICLES	See "EXPLANATIONS" section. [EIS]: See "EXPLANATIONS" section, paragraphs #4 and #9.
TVR TECHNOLOGIES INC.	Type II manufactured on Ford full size vans. If built after September 1, 2007: [EIS] (see notes).	ALL OTHER AMBULANCE VEHICLES	See "EXPLANATIONS" section. [EIS]: See "EXPLANATIONS" section, paragraphs #4 and #9.
WHEELED COACH	1997 and newer type I and III (see notes). August 1, 1998 and newer type II, Crusader models. If built after September 1, 2007: [EIS] (see notes).	ALL OTHER AMBULANCE VEHICLES	See "EXPLANATIONS" section. [EIS]: See "EXPLANATIONS" section, paragraph #9.
WILCOX BODIES	Type I and III (see notes)	ALL OTHER AMBULANCE VEHICLES	See "EXPLANATIONS" section.

NOTE: ALL OTHER AMBULANCE MANUFACTURERS NOT SHOWN ON THIS LIST ARE INADMISSIBLE.

SECTION 11 - ALL TRAILERS (see exceptions) WITH A GVWR OF 4 536 KG OR MORE, MANUFACTURED AFTER SEPTEMBER 1, 2007, MUST BE EQUIPPED WITH A REAR IMPACT GUARD (RIG) THAT CONFORMS TO SECTION (3) OF CMVSS 223 - REAR IMPACT GUARD. See "EXPLANATIONS" section, paragraph #10.

THE EXCEPTIONS ARE:

- (a) a pole trailer, a pulpwood trailer, a wheels back trailer or a trailer designed to be used as temporary living quarters (i.e. travel / RV trailer);
- (b) a low-chassis trailer (i.e. horse / stock trailer, boat trailer); and
- (c) a trailer designed to interact with, or having, work-performing equipment located in or moving through the area that would be occupied by a horizontal member that meets the configuration requirements specified in the standard.

Most trailers with a GVWR of 4,536 kg. or more sold at the retail level in the U.S. and manufactured after September 1, 2007 may not be equipped with a rear impact guard that conforms to Canadian requirements. The following is a list of manufacturers who have demonstrated compliance to CMVSS 223, Rear Impact Guard.
